COMMISSION STAFF'S SECOND REQUEST FOR INFORMATION TO
LOUISVILLE GAS AND ELECTRIC COMPANY

Louisville Gas and Electric Company ("LG&E"), pursuant to 807 KAR 5:001, is to file with the Commission an original in paper medium and an electronic version of the following information. The information requested herein is due on or before April 20, 2016. Responses to requests for information in paper medium shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

LG&E shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though

correct when made, is now incorrect in any material respect. For any request to which LG&E fails or refuses to furnish all or part of the requested information, LG&E shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, LG&E shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Refer to the Direct Testimony of John N. Voyles ("Voyles Testimony"), page 18, lines 18–22, concerning process water system construction. Explain in detail whether process water systems are constructed of individually designed components on site, or whether appropriate package systems are available for purchase and installation.

2. Refer to the Voyles Testimony, the Exhibits prepared by CH2M HILL, Inc. Typically, it is stated that the cost estimates for the studies are +30 percent/-30 percent, and include a 30 percent contingency. Confirm that the 30 percent contingency is in the total capital cost before applying the +30 percent/-30 percent high and low factors.

3. Refer to LG&E's response to the Attorney General's Initial Request for Information, Items 6 and 7. The response to Item 7 states that the closure process

must be completed in five years. Based on the response to Item 6, if the circumstances are applicable, can extensions to the five-year limit be requested and given?
